## Notice to Importers.

THE ATTENTION OF IMPORTERS is called to the Customs Regulation demanding the identification of cases with their contents. It is absolutely necessary for the proper conduct of the work that this regulation be adhered to. Importers failing to comply with the regulation will subject themselves to expense and delay as invoices which can not be properly identified will be sent in bulk to the Appraiser. Entries to be complete must designate each case by number and the contents thereof. Where a case contains mixed goods that is, free and dutiable, the case and number should be designated on one entry only. The contents which are other than the case so entered should be designated on entry as "packed in No. — entered —"

## AN OMITTED NAME.

A movement is on foot "to inaugurate an international memorial to commemorate the inception and extension of submarine telegraphy connected with the names of Cyrus W. Field, Sir James Anderson and Sir John Pender." It is strange that nothing is said of F. N. Gisborne, who originated the project of the first Atlantic cable. His claim to that honor was clearly proved in the editorial columns of the Washington Republican nearly twenty years ago. Mr. Gisborne impoverished himself and injured his health to promote that grand idea, and later went clean broke in a scheme to establish the "shortest route to Europe" from New York. Had he shared in the wealth his progressive mind brought to others, his claim to due honors would not have been ignored while he lived nor forgotten after his death.

A San Francisco paper says:

On and after January 1, 1897, the city of Glasgow, with 565,714 inhabitants, will levy no taxes of any kind. All public expenditures will be met from the earnings of street railways, lighting and water plants. There is food for thought among the opponents of civic ownership of these properties in this exhibit of its practical effects abroad, especially so in San Francisco, which will soon be called upon to accept or reject a new charter.

Exclusive franchises given to corporations for furnishing general services of any kind can only be justified when accompanied by the two conditions of government regulation and government participation in the profits. Given otherwise they are a fraud on the public for the advantage of private interests.

Householders are not allowed to leave their boxes of refuse on the sidewalk, and this is very proper. But the garbage collectors leave the boxes strewn along the middle of the sidewalk, instead of throwing them into the yards from

where they got them. Then, unless householders are keeping a close watch for the carts, the sidewalk is obstructed for more or less time. This nuisance is not a necessary evil, but the product of thoughtlessness or else pure ugliness on the part of the collectors.

In consequence of the failure of Moore Bros., mentioned in our foreign news by the Australia, a government committee has closed the Chicago Stock Exchange. This remarkably drastic measure, it is claimed, has averted a panic. It is reassuring to find that government in the United States has the power thus to interfere with speculators, who in epidemics of madness have previously, on different occasions, precipitated disastrous panics that were without cause in natural conditions.

Arbitration has again triumphed. The King of Portugal as arbitrator has given his decision that the island of Trinidad, occupied by the British for a cable station, belongs to Brazil. Great Britain cheerfully accepts the decision although her Premier, Lord Salisbury, has been blamed at home for reluctance in consenting to the principle of arbitration, particularly with regard to the Venezuela boundary question.

Another victory of peace by the New World over the Old is recorded. The Canadian artillery team won the Queen's garrison artillery prize at Shoeburyness, and their opponents carried them in chairs on their shoulders. It is noted that the Canadians had never seen a 64-pounder, with which the contest was held, until the previous week.

The good suggestion is made that the National Press Club pay the cost of moving Kate Field's body from Hawaii to the spot in the Adirondacks where she desired to be laid away. Unless the Hawaiian annexationists, in whose behalf the gifted journalist overtaxed her health, forestall such action by meeting the expense themselves, the idea is one that should be taken up. Surely a woman such as Kate Field was in life should not be denied the six feet of ground which the world owes to even the humblest of its mortals in death.—San Francisco Chronicle.

## Feed the Nerves

Upon pure, rich blood, and you need not fear nervous prostrations. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

HOOD'S PILLS are the favorite family cathartic, easy to take, easy to operate.

## Timely Topics

## "YOUR HOUSE IS ON FIRE."

This may be the warning cry to you some night. Whether it refers to your store, factory, mill, office, or residence, it means that all of your valuable account books, securities, deeds, insurance policies, notes, receipts, mortgages, etc., will be destroyed if not protected by a fire-proof safe. Can you afford to run this hazardous risk? The loss of an insurance policy alone in nine cases out of ten would cause you endless trouble and expense in going to law to secure a settlement, and then your chances of coming to a satisfactory adjustment with the insurance company would indeed be very slim. It is a duty that you owe to your business, to your family and to yourself to protect these things against both fire and thieves. That old tin box or drawer in which you have been in the habit of keeping your papers, would be of no service whatever in case of fire.

A VICTOR safe will last you a life-time, and it is the best investment that any business man can make. You make no mistake in buying a Victor. Out of forty thousand safes manufactured and shipped by this company, upwards of four hundred have already gone through very severe fires and not one has ever yet failed to preserve its contents when put to a test.

We have thousands of testimonials from prominent people as to the merits of these VICTOR safes. We offer a recent one as a sample

Greenville, N. C., Feb. 26th, 1896.

The Victor Safe and Lock Co., Cin., O.

GENTLEMEN:—I am pleased to say the Victor safe you sold me some five or six years ago, preserved intact all of its contents in the late fire in Greenville, on the 16th inst. This safe stood at a point in my office in the Opera House Block, that must have been one of the hottest parts in the great conflagration. It contained papers and other things of value. When it was taken out of the ruins and opened some twelve hours after the fire, everything in it was found to be safely preserved and in good condition. I cheerfully make this statement of facts in recognition of the valuable service rendered me by your safe, and you are at liberty to make such use of it as you may see proper.

Yours truly, THOS. J. JARVIS.

Thos. J. Jarvis was Governor of North Carolina for six consecutive years; was U. S. Minister to Brazil for four years and served one year as U. S. Senator from North Carolina after the death of Senator Vance.

We have these safes on hand in four sizes which we retail at \$50, \$75, \$112.50 and \$137.50. The Victor Safe Company also make a specialty of vaults and doors, for which we will quote prices.

The piano polish prepared by Merten & Co. is something new. It is the best and cheapest yet. We have it in 8 oz. bottles at 25 cents.

## Why Hang On

to your type printed visiting card, when it is so easy to get the correct thing right at home.

No card but an engraved one is acceptable; others are considered shoddy and should not be used.

We know the correct thing, and any work turned out by us, will place you right in the swim.

Every effort is being made by us to keep this work at home, and if a strict adherence to San Francisco prices, combined with good clean work is any inducement to place orders here, we will get all your work from now on.

Bear in mind that we are not trying to meet the cut rates of Eastern Department stores for inferior work; but are doing good work, using the very best of material, and adhering closely to ruling rates in San Francisco.

Nor is the work confined to Cards alone, but Wedding and Society Stationery, Business Cards, Announcements, Bill Heads for Professional men, Embossing, and the general run of work coming under that head, have the same careful attention.

You may not need anything now, but it is well to bear in mind when the time comes, and save the expense of sending away for it.

## W.W. DIMOND'S

We've said something, once or twice, about the beauties of the dining table when properly dressed with appropriate china and glassware. Everything depends upon the quality and artistic design.

You have had China news galore now for glassware. You've lived half your life with the impression that cut glass is too high priced an article for you to possess. You are wrong. We are selling to day genuine cut glass salt cellars, individual, in different designs, for two bits each; they've sold in other stores in Honolulu as high as \$2. It's the way we buy.

We have, also, sets consisting of a tray, one pepper and one salt, silver tops \$2. You never heard of them being sold anywhere for less than \$10. You never saw them before in Honolulu. Our stock goes from these small pieces to the heavier and larger dishes which sell at \$150.

In cheap tumblers we offer a thoroughly finished article at 50 cents a dozen and in case you might wish to use them for preserve glasses, we throw in a tin top for each. We have an engraved decanter, holds a quart. 35 cents, a pressed glass pickle or olive dish for 10 cents, a berry set, 7 pieces, 75 cents. The average man does not know how much glass is used in the household. We do, and we have 150 patterns of glasses to select from. In lamp chimneys we have all sorts. No. 1 A, three for a quarter; No. 2 A, ten cents each.
